

Garrett Wall**CW1002 1.1****VISUAL COMFORT & Co.**

STUDIO COLLECTION

GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is safety listed for damp locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

- 1** Temporarily install the mounting plate to the junction box.
- 2** Mark the anchor locations through the holes on the mounting plate, then remove the mounting plate from the junction box.
- 3** Drill appropriate sized holes at the marked points and install the anchors.
- 4** Secure the mounting plate to the junction box and screw the anchors screws into the anchors.
- 5** Connect the fixture ground wire to a suitable ground in accordance to local electrical codes.
- 6** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 7** Connect the black fixture wire to the hot power line wire with a wire nut.
- 8** Properly place all wires and wire nut connections into the junction box/fixture base, mount the fixture onto the mounting plate, and secure it in place using the fixture screws.
- 9** Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage Information.
- 10** Align the shade holes with the fixture holes and secure the shade in place by screwing in the thumb screws beginning with the side screws. **NOTE: Side screws must be installed first, then the center screws for proper installation.**
