

Brianna Linear Chandelier

EC10614 1.0

VISUAL COMFORT & Co.

STUDIO COLLECTION

GENERAL PRODUCT INFORMATION:

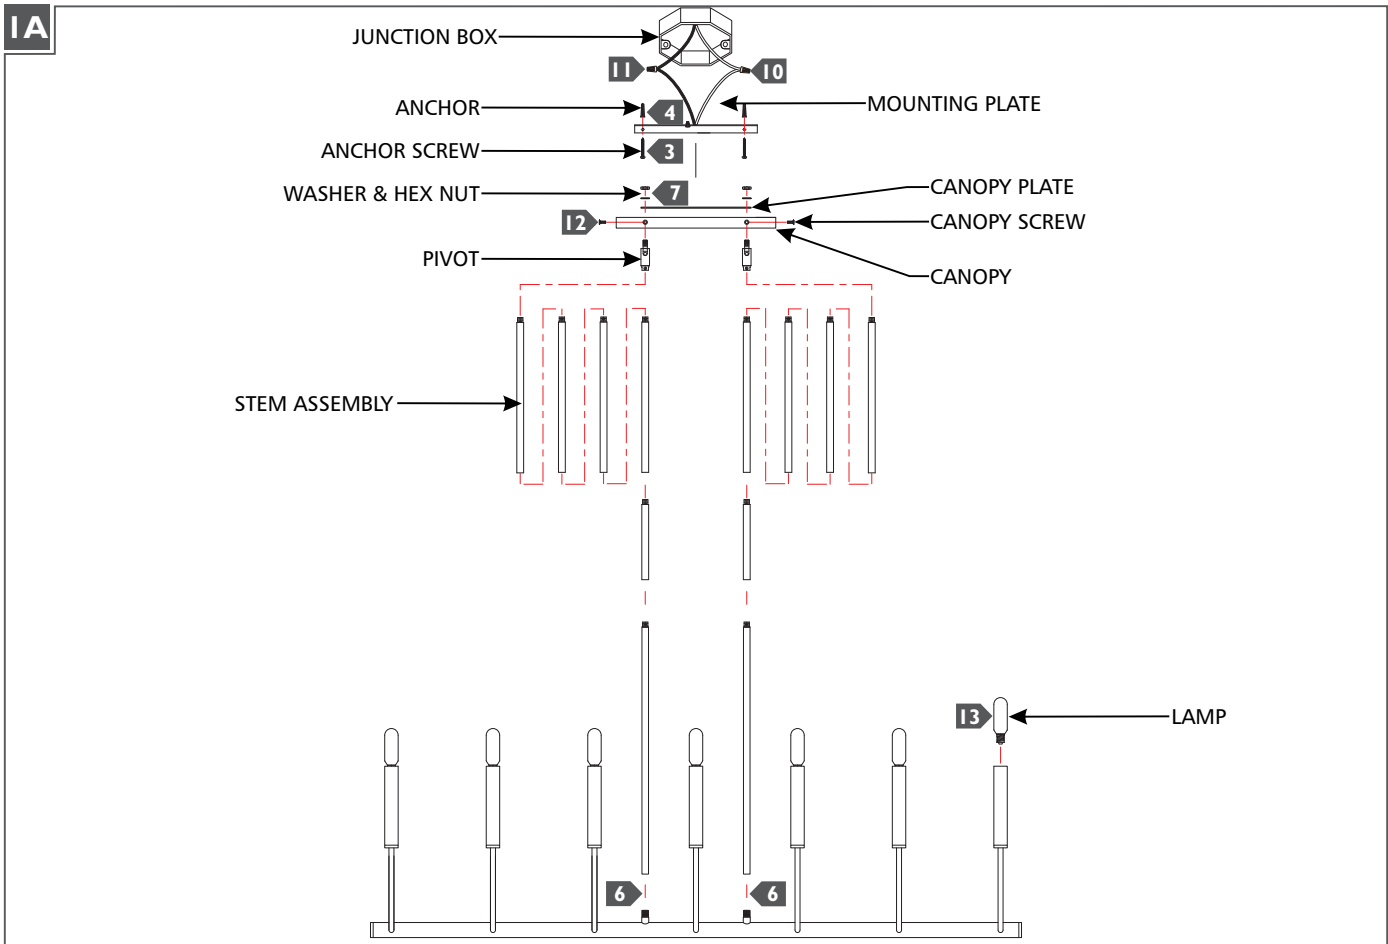

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is safety listed for damp locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

This instruction shows a typical installation.

CAUTION - RISK OF FIRE
 This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
Use minimum 90°C supply conductors.

- 1** Temporarily install the mounting plate to the junction box.
- 2** Mark the anchor locations through the holes on the mounting plate, then remove the mounting plate.
- 3** Install the anchors to the marked points.
- 4** Secure the mounting plate to the junction box and screw the anchor screws into the anchors.
- 5** Determine the wanted height or look of the fixture with the provided stems and pivots, then assemble them by screwing them together.
- 6** Feed the cords through the stem assemblies, then screw the stem assemblies to the top of the fixture.
- 7** Feed the cords through the canopy, canopy plate, washers, and nuts (in order shown), then place them onto the swivels and secure them together with the hex nuts.
- 8** Pull the power line wires out of the junction box. Trim the cord leaving enough to make electrical connections.
- 9** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 10** Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 11** Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 12** Neatly place all the wires into the junction box, place the canopy onto the mounting plate, and secure it in place with the canopy screws.
- 13** Screw the lamps into the sockets. Refer to the label on the lamp socket for Max Wattage information.
