# Install the Fixture

- 1** Install the glass one panel at a time by rotating the glass and insert it into the side opening of the frame, rotate it back upright and insert it into the bottom stationary tab, position the panel in place, then bend the top tab to secure the panels in place.
- 2** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 3** Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 4** Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 5** Secure the fixture to the post with post screws.
- 6** Screw the lamp into socket. Refer to the label on the socket for Max Wattage Information.
- 7** Place the cover on top of the fixture and secure it in place with the cover screws.
